

FIND YOUR **Bangle** SIZE

Method 1

If you already have a bangle, measure the inner diameter and compare it with the chart below.

Method 2

STEP 1:

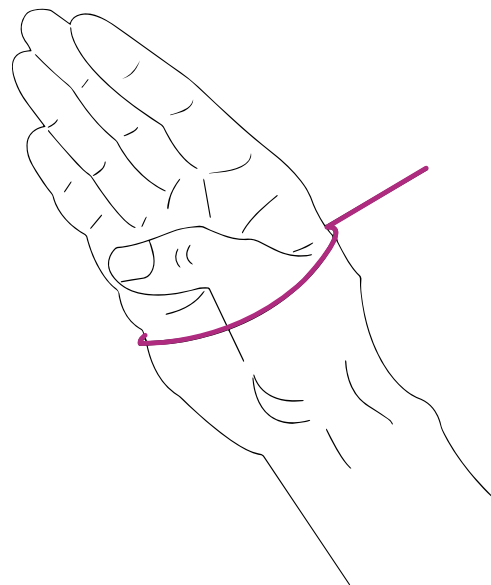

Bring your thumb close to your little finger and close all the other fingers and pretend to put on a bangle, as shown in figure.

STEP 2:

Using a strip of paper, wrap it around the widest part of your hand. Mark the point where the paper overlaps and measure the length with a ruler or measuring tape. This will give you the circumference of your hand.

STEP 3:

After measuring the circumference, compare it with the chart. Purchase our luxury bangle in the size with the very next diameter to your actual measurement.

BANGLE CHART BASIC GUIDE

Bangle Size	Diameter	Diameter	Circumference
	Inches	Centimeters	Inches
2-2	2.125	5.4	6.67
2-4	2.25	5.7	7.06
2-6	2.375	6	7.46
2-8	2.5	6.5	7.85
2-10	2.625	6.7	8.24
2-12	2.75	7	8.64

Tips to keep in mind before purchasing bangles/bracelets :

1. It is always recommended to purchase bangles / bracelets that are slightly larger than your wrist size, making them easier to slide over your hand.
2. To wear bangles easily, use a silk material to cover your hand and help the, slide down smoothly.
3. In case if you're purchasing online and unsure about your size, opt for screw type bangles. They are easy to wear and also adjustable.
4. For diamond bangle intended for regular use, ensure the diamonds are of the best quality and high grade. The diamond setting should be durable and not overly complex.
5. When purchasing bangles, invest in a high-quality storage box to maintain their size and prevent damage. The box should be durable and designed to keep your bangles safe.
